

CAPT meeting, Thursday
Nov. 18, 2004

Meeting notes

- CAM3 issues were:
 - Jim is working hard to prepare the initial conditions
 - The 1997-2003 set will take several months to prepare
 - The problem:
 - With this time estimate, it will be very difficult to have anything done by the ARM science team meeting
 - The solution:
 - Concentrate on the March 2000 IOP-
 - This is a GCSS and ARM case study period
 - We have done it with CAM2,
 - » CAM2, CRM, SCM, and RCM have been run for this case
 - » Opportunity to show value of CAPT in comparison with simpler models and previous version of CAM
 - Shaocheng will take lead on analysis, since he has all other data
 - Jay now has a time period to concentrate on
